Queries

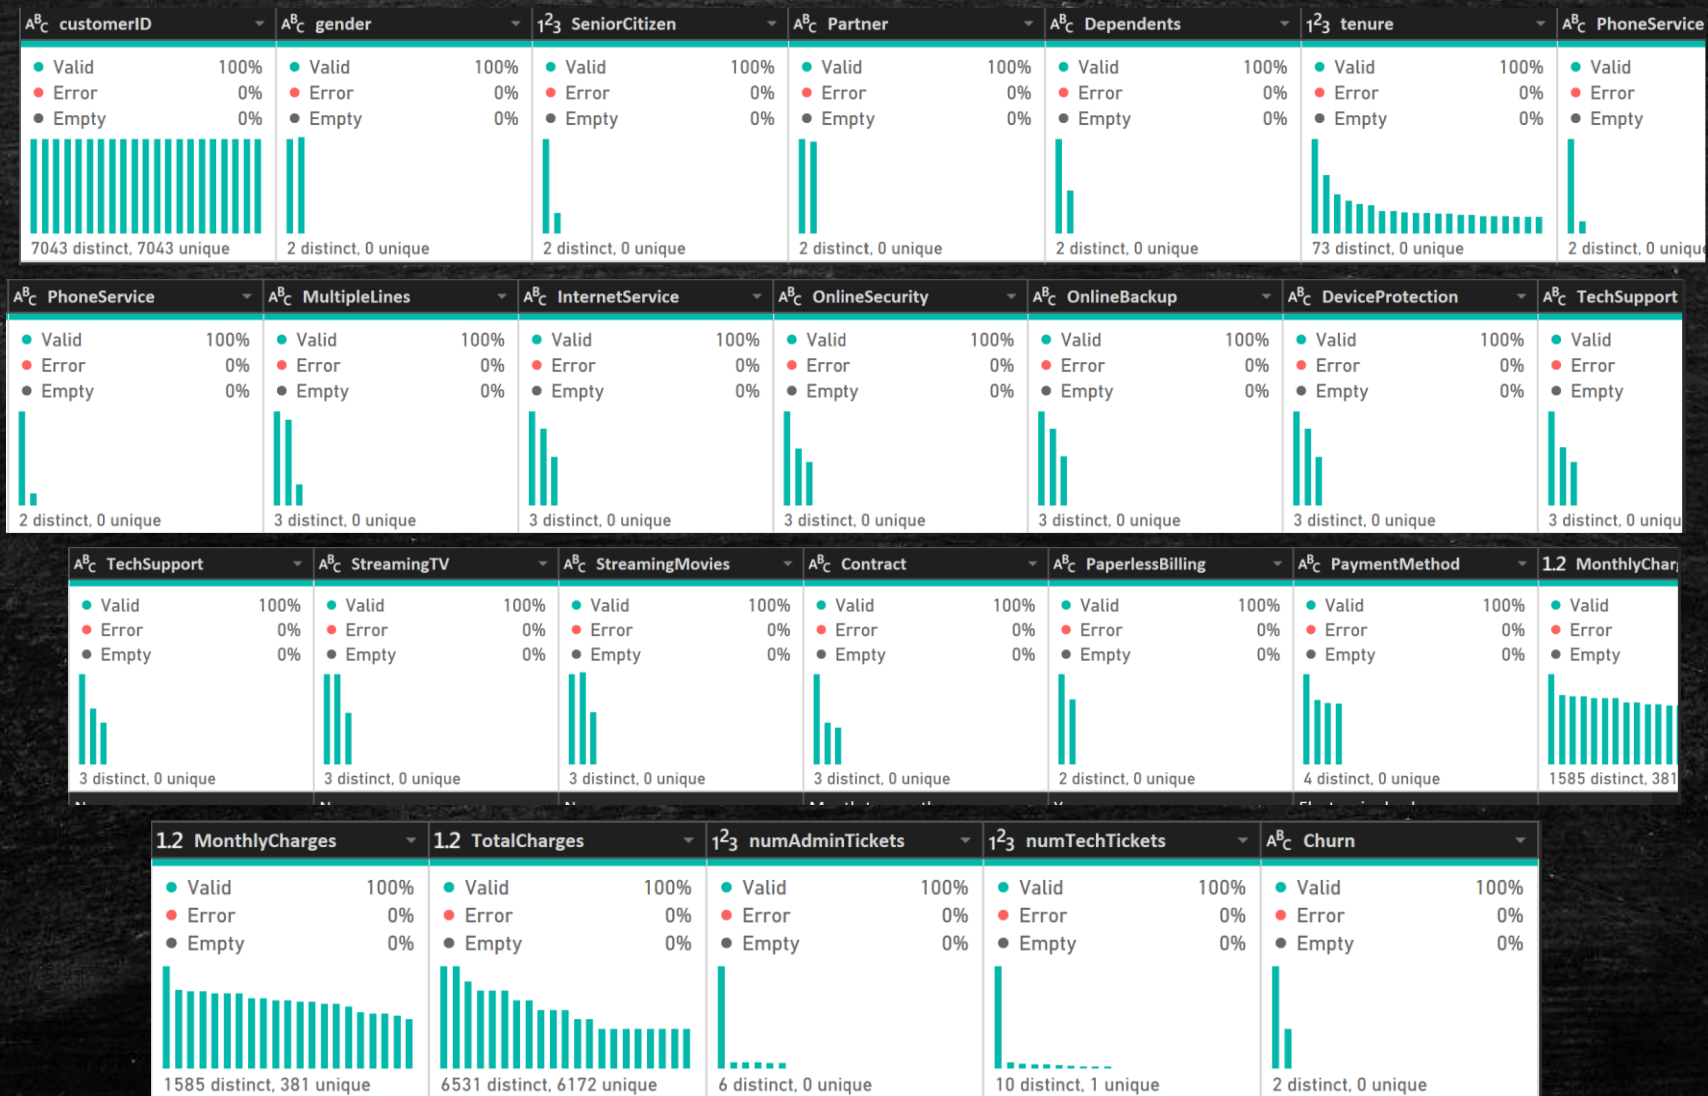

Common data sources

 Excel workbook

Import data from a Microsoft Excel workbook.

Clean Data

Create Measures

```
Total Admin Tickets = SUM('Churn Dataset'[numAdminTickets])
```

```
Total Customers = DISTINCTCOUNT('Churn Dataset'[customerID])
```

```
Yearly Charges = SUMX('Churn Dataset', 'Churn Dataset'[MonthlyCharges] * 12)
```

```
Streaming TV Customers =  
CALCULATE(  
    [Total Customers],  
    'Churn Dataset'[StreamingTV] = "Yes"  
)
```

```
Churn Rate =  
DIVIDE(  
    CALCULATE(  
        [Total Customers],  
        'Churn Dataset'[Churn] = "Yes"  
    ),  
    [Total Customers])
```

```
Streaming Movies Customers =  
CALCULATE(  
    [Total Customers],  
    'Churn Dataset'[StreamingMovies] = "Yes"  
)
```

```
Streaming TV Adoption = DIVIDE([Streaming TV Customers],[Total Customers])
```

```
Streaming Movies Adoption = DIVIDE([Streaming Movies Customers],[Total Customers])
```

```
Average Monthly Charges = AVERAGE('Churn Dataset'[MonthlyCharges])
```

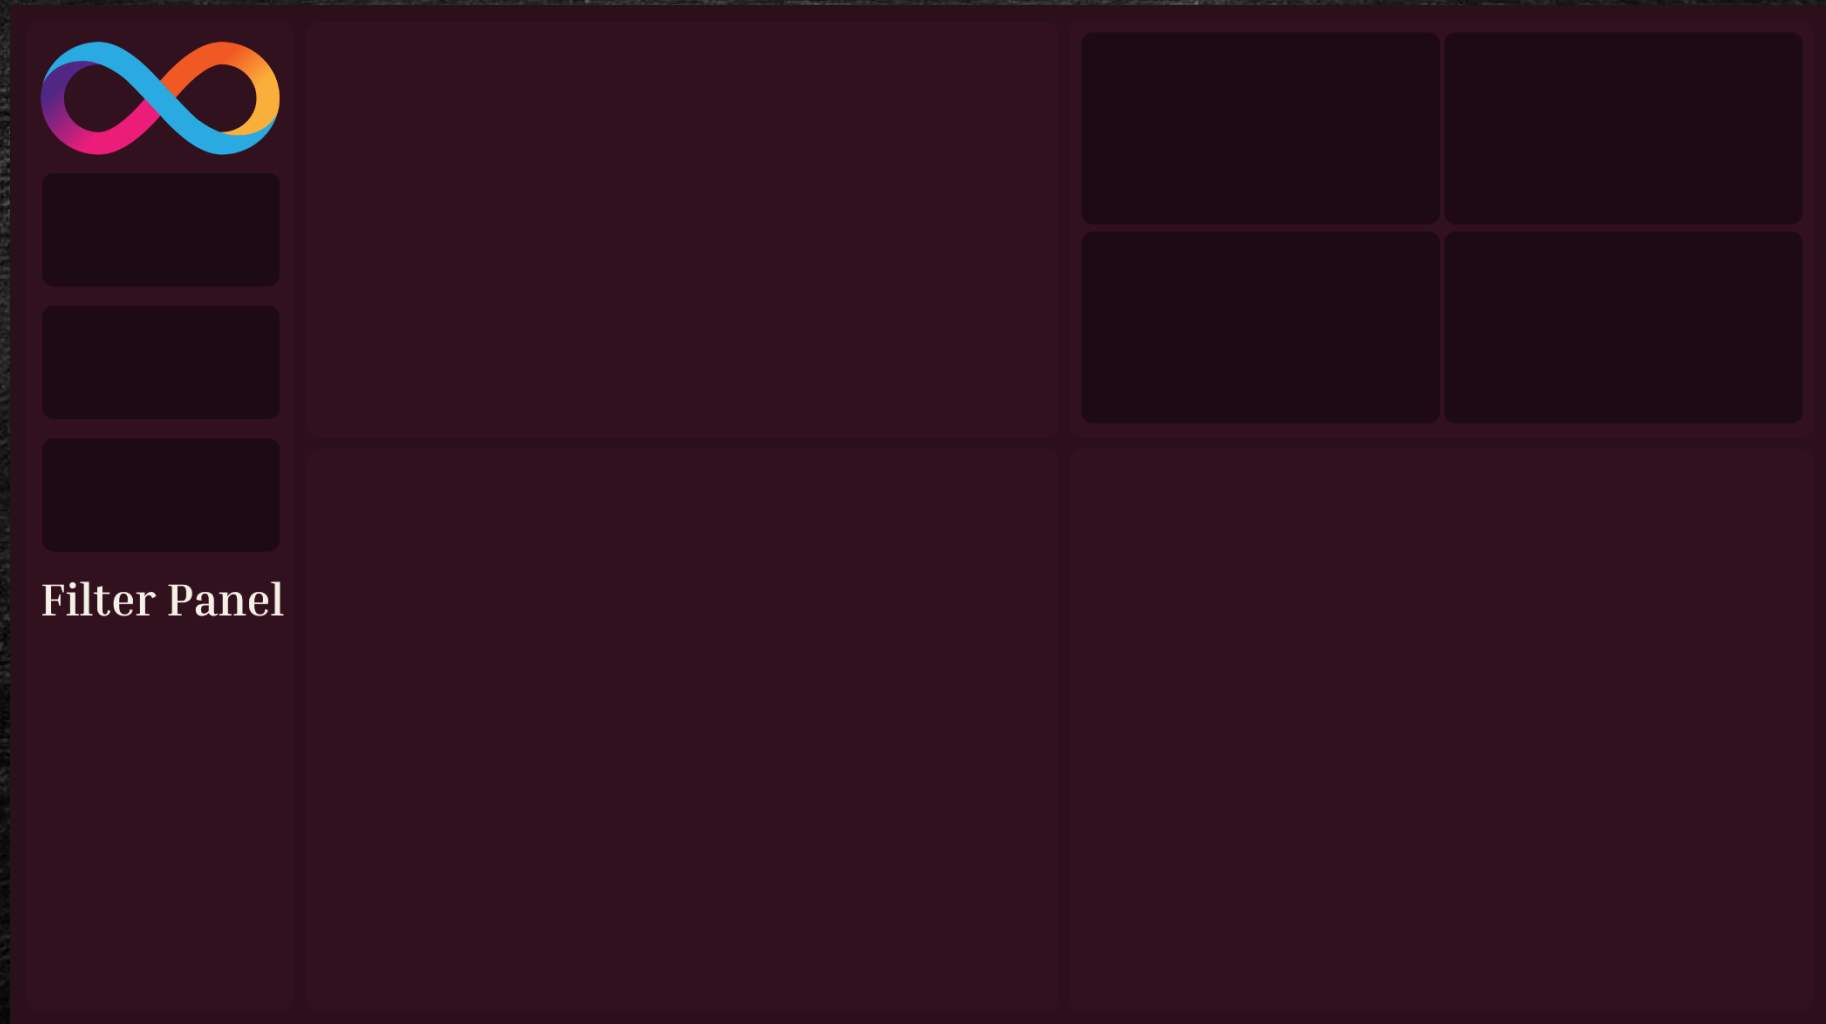

```
Average Tenure = AVERAGE('Churn Dataset'[tenure])
```

```
Total Revenue = SUM('Churn Dataset'[TotalCharges])
```

Measure Table

- Average Monthly Charges
- Average Tenure
- Churn Rate
- Revenue Target
- Streaming Movies Adoption
- Streaming Movies Customers
- Streaming TV Adoption
- Streaming TV Customers
- Tenure Target
- Total Admin Tickets
- Total Customers
- Total Revenue
- Yearly Charges

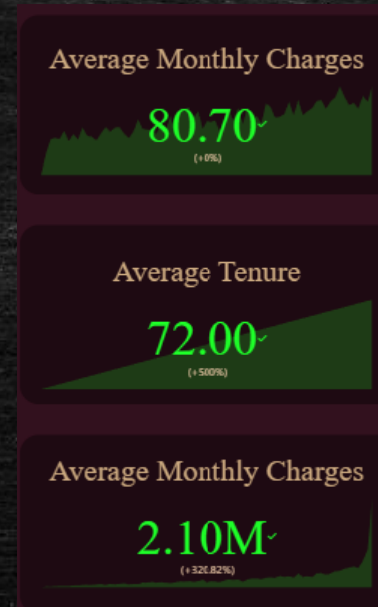

Figma Design Dashboard

Key Performance Indicators (KPIs)

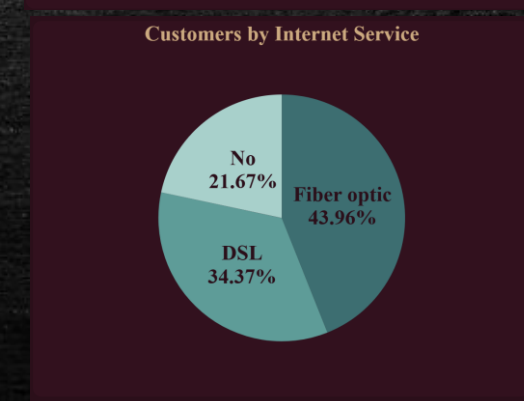

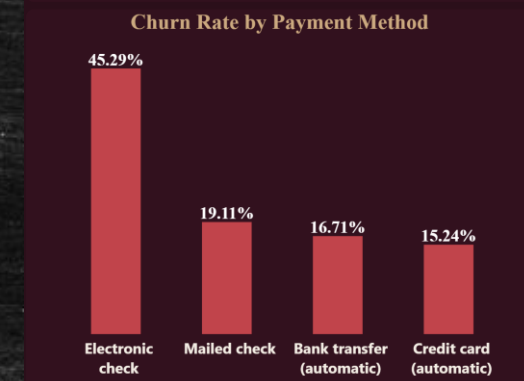

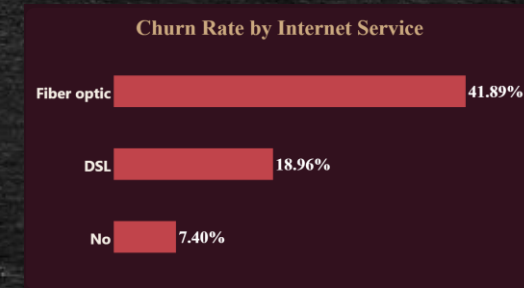

- Admin Tickets: Monitoring administrative or billing-related inquiries.
- Yearly Charges: Total revenue generated on an annual basis.
- Streaming TV & Streaming Movie: Adoption rates for entertainment services.

Yearly Charges	Total Admin Tickets
\$5.47M	3632
Streaming TV Adoption	Streaming Movies Adoption
38.44%	38.79%

Charts

- Churn Rate by Type of Internal Service: A bar chart identifying which services have the highest turnover.
- Churn Rate by Payment Method: A bar chart displaying which payment behaviors correlate with leaving.
- Customers by Internal Service: A pie chart showing the distribution of the user base across services.
